\$3.74m	2013	THE GLOBAL FUND	Tuberculosis control
\$3.63m	2012	IDA	Basic health care
\$3.40m	2013	IDA	Basic health care

SOURCE: This information was extracted on 23/09/2015 from the Creditor Reporting System (CRS) database maintained by the Organization for Economic Co-operation and Development (OECD), Statistics Department (<https://stats.oecd.org/Index.aspx?DataSetCode=CRS1>).

DEFINITIONS: CRS financial data presented here are commitments and disbursements. A commitment is a firm written obligation by a government or official agency, backed by the appropriation or availability of the necessary funds, to provide resources of a specified amount under specified financial terms and conditions and for specified development purposes. A disbursement is the release of funds to, or the purchase of goods or services for, a recipient; by extension, the amount thus spent. Disbursements record the actual international transfer of financial resources, or of goods or services valued at the cost to the donor. It can take several years to disburse a commitment. Yearly commitments and disbursements are presented in constant 2013 US\$ to ensure comparability over years. ODA for health volumes are also presented in US\$ per capita per year and according to allocation (i.e. policy purpose). Policy purposes used here are based on the original CRS statistical purpose codes, but have been aggregated to reflect, as far as possible, global health development benchmarks (i.e. MDGs; Reproductive Health & Family Planning).
